Ever wondered:

- How California's economic straits affect our students, the choices Barb and Dana made with dwindling resources and their spending priorities for the future?
- What the school board can do to keep students healthy – physically and mentally?
- How much work remains to meet PAUSD Strategic Plan goal to engage, challenge, and support all students academically?

Join us for the first ever in a series of **"Palo Alto PTA Council Live & Online Town Halls"** as Moderator PTAC President Terry Godfrey asks School Board members Barb Mitchell & Dana Tom audience questions like these about education matters that matter before election day.
